POSITION QUALIFICATIONS

1. Specialty Summary. Manages system analysis and design, programming, systems operation and maintenance, resource management and security management. Directs activities for installing, maintaining, repairing, overhauling, deploying, and modifying ground radar and airfield systems and equipment platforms to include: air traffic control, weather, ground aircraft control and warning radar systems; air traffic control radio; meteorological and navigational aid systems. Related DoD Occupational Group: 110100.

2. Duties and Responsibilities:

Plans and organizes maintenance activities. Plans and supervises system installation and evaluates facilities layout and performance standards. Designs and develops organizational structures and determines equipment, training and supplies required for systems implementation and support. Executes operational plans to ensure positive control of assigned forces. Evaluates operational readiness of ground radar and airfield systems equipment, and related support equipment.

Directs activities responsible for system analysis and design, programming, operations and maintenance, security, systems management, technical support, and resource management. Implements and interprets policies, directives, and procedures.

Directs maintenance activities. Directs personnel employed in siting, deploying, inspecting, adjusting, removing, replacing, and repairing ground radar and airfield systems and related equipment. Prepares and analyzes reports encompassing siting, deploying, maintaining, installing, repairing, and removing ground radar and airfield systems and related equipment. Coordinates activities and resolves common problems. Directs overhaul and repair of ground radar and airfield systems and related equipment. Ensures work standards are maintained. Determines extent and economy of repair, including disposition of malfunctioning equipment. Inspects and evaluates maintenance activities for compliance with directives. Evaluates, rates, and prepares reports on activity effectiveness. Recommends and implements corrective action for improved methods and

procedures. Evaluates effectiveness of equipment usage, systems performance, customer service, supplies, and system scheduling, processing, and maintenance.

Supervises maintenance functions. Resolves problems with installing, maintaining, repairing, and overhauling systems and equipment. Checks systems and equipment for proper siting, installation, and serviceability.

Establishes local maintenance procedures and policies. Performs research and development of new systems and equipment. Establishes training requirements. Establishes training programs to meet local knowledge and certification requirements.

Plans, programs, and develops budget inputs to ensure resource availability for operational requirements.

Manages plans, implementation, and development functions. Helps functional users define requirements. Supervises functional user requirements translation into automated systems capabilities. Organizes teams that use methodologies to meet mission requirements. Supervises test and evaluation efforts to determine performance. Organizes and participates in mission implementation and conversion. Ensures continued interface between functional users, and programming and operations personnel. Ensures compliance with standards for systems documentation.

Specialty Qualifications:

Knowledge. Knowledge is mandatory of: electronics principles theory and its application to ground radar, radio, meteorological, and navigational aid facilities, systems, and equipment; their interoperability; airfield operations and support elements of a typical air base; and interpretation of wiring and logic diagrams, blueprints, and technical orders.

Education: Not used.

Training: Not used.

Experience: For award of AFSC 1C890, qualification in and possession of AFSC 1C871/1C872 is mandatory. Also, experience is mandatory managing or directing functions such as installing, maintaining, repairing, or modifying the various systems and related equipment of the feeder specialties.

Other: Specialty requires routine access to Secret material or similar environment. For award and retention of AFSCs 1C890 and 1C800, completion of a current National Agency Check, Local Agency Checks and Credit (NACLC) according to AFI 31-501, *Personnel Security Program Management*.

For award and retention of these AFSCs, must maintain local network access IAW AFMANs 33-152, *User Responsibilities and Guidance for Information Systems* and 33-282, *Computer Security*.

All questions regarding this announcement should be directed to Lt Col Francisco J. Dominguez at commercial (281) 929-2025 or DSN 454-2025.

SUBMIT APPLICATIONS TO: MSgt Tajuana Jefferson
147 RW/RDO
14657 Sneider St.
Houston TX, 77034-5886
